Join the SCIE ARMA Chapter for its 2018 Annual RIM Seminar.

This year's speaker will be Mitch Cochran, CISM, CGCIO, Director of Information Technology, City of San Bernardino.

Mitch Cochran is the Director of Information Technology for the City of San Bernardino, California. His research interests include content management, public participation in e-Government, and IT governance, and operations. He has been active in the Municipal Information Systems Association of California (MISAC), working on statewide audits and education programs. He earned a Masters in Homeland Security from Penn State and in Administration from UC Riverside along with a B.S. in Statistics from UC Riverside. He is also an officer in the California State Military Reserve.

Mitch will be discussing some of the industry's hot topics:

- ❖ Cyber threats/warfare – What do you expect? What don't you expect?
- ❖ Trusted systems – How to establish trust and how to fix vulnerability
- ❖ Email management – Backup issues, retention issues, automatic deletions, archives
- ❖ Managing social media as a record
- ❖ Using metadata to auto classify records
- ❖ SAAS vs. hosted software – Benefits and risks
- ❖ Bring your own device (BYOD) – Based on San Jose ruling
